Bio Vakantieoord

Bio Vakantieoord handed its Microsoft 365 backups to us.

A holiday park in Arnhem for families with children who need extra care, running since 1927 on donations and volunteers.

Organisation	**Bio Vakantieoord**	Sector	**Non-profit**
Service	**Microsoft 365 backup**		

“We no longer have to deal with time-consuming backup management.”

Bio Vakantieoord

Holiday park for families with children who need extra care, Arnhem

The situation	A small IT team spent a lot of time on manual backups that were easy to get wrong. The existing solution only covered part of the data and still needed someone to watch it.
What we did	A fully managed Microsoft 365 backup. We check every day that the backups succeed and handle anything unusual through our ticket desk.
The result	According to Bio Vakantieoord, about 80% less time goes into backup management. That time now goes to projects for the guests, such as a gaming community and modular joysticks for wheelchairs.
